

General

Autograder

Unix

Use man pages (eg. `man ls`) to see all options available for a command

Regex - [RegexOne - Learn Regular Expressions - Lesson 1: An Introduction, and the ABCs](#)

Use GPT to understand slides

Web

W3Schools is the best (filter by stuff appearing in slides)

Download W3Schools from <https://github.com/Ja7ad/W3Schools/releases>

Keep Lab Exercises codes and use them as templates

Remember that cLab interface might overwrite VSCode irreversibly

Most time taking; so be careful to not get stuck

Remember ID names are sensitive
